

way finding system

infor[®]m

BR BLUE RHINE
INDUSTRIES L.L.C.
The LED Sign Specialists!

Outdoor signs are the start of a wayfinding system. They welcome the visitors and give first directions.

infor^m• post and panel system. Individual execution, various colour combinations.

A good way finding system informs, provides an overview of the building complex and leads the visitors to their destination and the office or person they are looking for .

A main directory gives an overview of the building and should provide directions to the various floors and elevators.

main directory with floor -information

infor^m directories open a wide variety of options and combinations with other materials (pin-board, magnetic-wall, others)

All panels are interchangeable and are combinable or replaceable by self lettering panels.

Optional: all directories can be protected against vandalism by acrylic glass and/or special locking device.
